

Fatal accident in HHI Shipyard

1. Time:17:15 Date: Jan 12, '04
2. The victim was 44 years old employed in the outfitting department.
3. The worker was opening the cover of fresh water hydrophore with an impact wrench. The worker was standing on the cover. The vessel was still under pressure when he loosened the final bolt. The cover blew off, striking the worker on the chest. The force behind the cover lifted the worker up, pinning him against the ceiling.
4. The worker suffered fatal injuries as a result of the incident.
